Parent Tips for School Success

Helping your child succeed in School

Put Planning on the Calendar!

Middle Schoolers have six or more classes as well as activities and other commitments. Organization can make the difference between doing well in school and sinking. Sit down with your child for a few minutes each Sunday to plan the week ahead. Get out your family calendar and have your child write down important deadlines and events. Your child will practice scheduling time, and the days will go more smoothly.

You can also ask your school's Title I Parent Liaison for a school planner to keep track of assignments, tests, activities and more!

Reading Tips for K to 5 Students!

Kindergarten— "Write it Down" Have paper and pencils available for your child to use for writing. Working together, write a sentence or two about something special. Encourage them to use the letters and sounds they are learning about in school.

1st grade— "Play Word Games" Have your child sound out the word as you change it from mat to fat to sat; from sat to sag to sap; and from sap to sip.

2nd grade—"Point out the Relationship Between Words" Explain how related words have similar spellings and meanings. Show how a word like "knowledge", for example, relates to a word like "know".

3rd-5th grade— "Teach your child some "mind tricks" Show your child how to summarize a story in a few sentences or how to make predictions about what might happen next. Both strategies help a child comprehend and remember.
